

TRANSMISSION TOWER PRODUCT CATALOG

Voltage, function, circuit and application solutions

2010

Established

80,000+

Tons annual capacity

30+

Export countries

Product Range

33kV, 66kV, 110kV, 132kV, 220kV, 500kV and 750kV transmission towers; single, double and multi-circuit configurations; suspension, tension, dead-end and transposition structures.

Application Environments

Mountain, desert, coastal, river crossing, industrial, rural and long-distance transmission corridors.

Manufacturing Capability

Established in 2010 with 80,000+ tons annual production capacity and export service to 30+ countries.

This document provides general reference information. Final dimensions, loads, steel grades, coatings and documentation are confirmed against project requirements and approved drawings.
